High resolution plus gorgeous bokeh

The first E-mount medium telephoto macro lens with built-in image stabilization delivers outstanding G Lens quality: Stunning resolution at up to 1:1 magnification, plus gorgeous background bokeh when required, even when shooting handheld. A floating focus mechanism ensures that consistently superior optical performance is achieved at all focusing distances.

Lens Configuration

The impeccable Sony G Lens design emphasizes a graceful balance between high resolution and gorgeous background bokeh that can enhance the artist's vision.

MTF Chart

MTF (Modulation Transfer Function) describes how well a lens can reproduce fine details, measured as the degree of contrast achieved between finely spaced lines.
