Final Rinse

**FUNCTION**
The final rinse promotes uniform drying.

**COMPONENTS**

*Wetting Agent:*
The surfactant promotes uniform drying and helps prevent water spots and streaks.

*Biostat*
The biostat helps prevent biological growth (slime) in the concentrate.

*You may have to double your replenishment rate for machines with low utilization.

**PREPARING A FRESH TANK SOLUTION**

*Note:* These instructions are for mixing solutions from KODAK Final Rinse and Replenisher, Process E-6AR (5-gallon flexible container).

For each litre of tank solution, mix 10 mL of concentrate with 990 mL of water.
