

# Letter Codes for KODAK PROFESSIONAL Films

You may have seen an acronym in a magazine or a film ad and wondered what film with a 2- or 3-letter or letter/number code they're referring to? Here are a couple of quick guides to Kodak Professional US&C's chrome and negative films. The list on this side is sorted alphabetically by film letter or letter/number code. The one on the reverse side of this sheet is sorted by film type and speed.

For more information about these films, see KODAK Publications E103RF (reversal), E103NF (negative), and E103BF (black and white).
