

# CURRENT INFORMATION SUMMARY

## Opening Instructions for the KODAK ADVANTIX Switchable One-Time-Use Flash Camera

Wear eye protection when removing film and batteries from all cameras.

### 1 Wind Off

- Cover lens
- With Shutter Button depressed, wind Thumbwheel to a **stop** to close Advantix film cassette door. Be certain Thumbwheel will not rotate any further.
- NOTE: Advantix film cassette door (inside camera) must be closed before removing camera film door to prevent damage to customer photos.
- **E** must be visible.

### 2 Open Film Door

Insert tool into film door slot.

### 3 Remove Film

- Use tool to pop film door off.
- To remove film cassette, tip open end of camera downward.
- Film cassette will slide out.

### 4 Remove Batteries

- Insert tool into battery door slot.
- Use tool to bend door back.
- Remove two batteries.

### 5

- Remove battery located towards front of camera first.
- Use index finger to slide negative end of battery out first.

### 6

- Use index finger to slide negative end of second battery out sideways.

### 7

- Place used camera in recycle bin
- Return camera to Kodak for recycling.

CAUTION: This camera body contains a high voltage capacitor and circuit board. To avoid electric shock, do not pry apart the front and back sections of camera. Remove only film and batteries from their respective compartments. If sections of the camera are separated, do not touch the circuit board.

CAUTION: To avoid injury, use tool carefully.
